DILE  **OFFICE**®

acri a

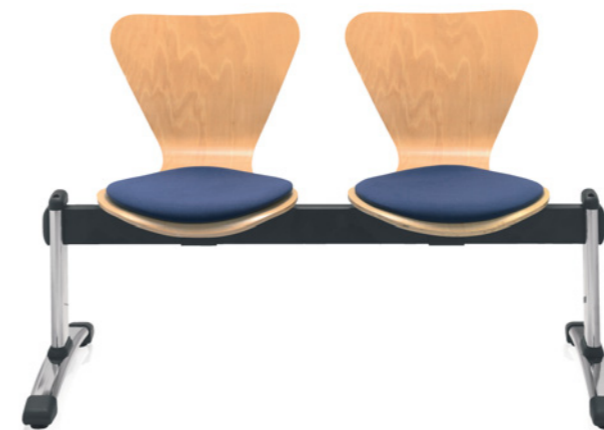

A collection of opaque, ultra-resistant methacrylate resin structure chair. A structure featuring 4 chrome-plated legs, or a chrome base and wheels and a choice of different seat and backrest designs, providing an attractive, well-balanced choice as a communal area or office chair Design for all.

maadereira

Wood is inspired by nature. Harmonious and classical design for a seating programme to combine communal use options with the addition of wheels for functional work stations. Lacquered finish with a silky feel and chrome finish structure.

For communal waiting areas. An option for contemporary open spaces where simplicity and timeless design combine with the freshness of natural wood or plain white. Robust, long-lasting chrome plated bench structure, with anti-slide floor supports.

Office

Versatility. Functionality and Economy. A collection with endless possibilities, with a fold-down writing support, underseat mesh tray and the option of chrome-plated structure. Stackable for use in limited spaces. Very useful to solve collective problems in functional areas. Furthermore, the range can be completed with a traditional bench, with first-quality finishing, a chrome-plated metal structure and anti-slip floor supports.
