Icon chairs offer a fresh approach to operator seating. A distinctive high or medium back shape creates a modern look for any office environment.

Mechanism (1) is supplied as standard and provides gas height adjustment and back rake adjustment on levers. Optional mechanism (2) provides gas height adjustment, back rake adjustment and an independent seat tilt on levers. Both mechanisms feature back height adjustment by handwheel.

A modern medium back chrome cantilever is also available as a visitors chair. A variety of arm and base styles are also available.
