

# XENOS

# XENOS

## Xenos

The xenos chair combines aesthetic design with practical function. The gently curved design ensures a gentle wrap around feeling to the back, whilst the smooth synchronised mechanism with seat slide provides the perfect working position that can be adjusted to the weight and height of the individual.

## Standard Features

Synchronised mechanism with:  
Multi position lock and anti-kick brake  
Variable tension adjustment  
Height and width adjustable armrests  
Seat slide providing adjustable seat depth  
Chrome base
